

Afolabi Similoluwa

Frontend Engineer, and UI/UX Designer

I am a passionate, creative, and detail-oriented tech-savvy designer, and engineer with 3+ years of exceptional skill level in handling several design and development projects using various tools such as Figma, Adobe XD, JavaScript, HTML, SCSS, REACT and more.

I have worked and still work towards meaningful contributions to a team with a positive attitude, to enhance growth and productivity. I am passionate about working in a tech company, as it promotes innovation, creativity, and development.

EXPERIENCE
